Karaikudi

Career objective

Aspiring Software Developer with hands-on experience in React.js, Node.js, Python, and Deep Learning. Proven ability to build and deploy real-world AI-powered and full-stack web applications. Seeking a software developer role where I can contribute to impactful, scalable products while growing in a collaborative engineering environment.

Educational History

- *B.E in CSE (2021-2025)*

  Mount Zion college of engineering and technology

  CGPA: 7.27/10

- *HSC(2019 - 2021)*

  Sri Meenakshi sundareswar vidhyasala higher secondary school

  Percentage: 78.8%

Work Experience

- *Software Trainee - Marz Technologies - Karaikudi (Feb 2026 - Jul 2026)*

  Designed and implemented dynamic, responsive websites and customized software solutions across front-end UI design, back-end integration, database management, and cloud deployment. Leveraging freelance collaboration and technical instruction, gathered client requirements, delivered tailored digital products.

- *Web developer intern - Sai Techno solutions - Coimbatore (Jul 2024 - Aug 2024)*

  Built and delivered responsive web interfaces using HTML, CSS, JavaScript, and React.js as part of a live client project. Collaborated with senior developers in a real-time environment, contributing to 3+ UI modules and improving page load performance through component optimization.

Projects

- *Freelance websites*

  Designed and delivered 3 responsive business websites for freelance clients.

  natarajanandco.com | aqeeltraders.com | melodyphotographyps.netlify

- *AI based image restoration and reconstruction of severely damaged images*

  Built an AI-based system using CNNs and OpenCV to restore and reconstruct damaged images. Used deep learning for noise reduction and inpainting, making it useful for digital archiving, forensic analysis, and heritage image restoration.

Skills

Coding languages:

- Python
- Java

Frontend developement:

- HTML,CSS
- JavaScript
- Bootstrap
- React.js
- Tailwind CSS

Backend developement:

- SQL
- Node.js
- MongoDB
- Flask

Tools & Design:

- Photoshop
- Canva
- Git
- Github
- Figma
- UI&UX

Certifications

- Python Program | SkillRack | 2023
- Bootstrap | Udemy | 2024
- MongoDB | MongoDB | 2025
- Js & Ds | FreeCodeCamp | 2025

Activities

- Visited National Institute of food technology and management, Thanjore
- Visited "Naga Limited - Food Manufacturing supply", Dindugul
